

In order to deeply understand the **channels**, a key part of today's ICT world, we have created **IDC Quest**.

**IDC Quest is an app** which can be used to better understand the channels' environment and their involvement in the evolution of the IT industry.

Within the app, you can also get an **executive summary** of the technology trends in which they participate.

## Download

The app on Google Play  
or App Store

## Answer

The survey related  
to your market

## Discover

The trends about  
the technology of  
your interest

**Be a channel, be a partner...  
Be part of the information.**

Download the IDC app and be part  
of the channel community
